New York, July 23.—The government filed suit against the New Haven railroad this morning charging the road is a monopoly in violation of the Sherman law and seeking its dissolution.

The bill emphasizes the density of population in the territory traversed by the road and subsidiaries, declaring this makes the offense more reprehensible. Assistant Attorney General Gregory is directing the suit.

Financiers who claim to be on the inside say there is no cause for alarm and the litigation will ultimately result in a decree conforming to the agreement reached between the road officials and the Department of Justice. The stock market is not affected.

Fire Hose Companies Send Salesmen Here

Following recent agitation in the papers concerning alleged defective hose in use by the Fire Department, Mayor Joe Baker instructed City Clerk R. W. Lisenby to notify several fire hose companies to send representatives to Dothan.

Two fire hose companies were notified by wire, and one salesman is here while another is expected today. They will no doubt confer with Mayor Baker and the Council or Fire Department committee in regard to laying in a supply of new hose.

The Fire Department needs more hose, according to Fire Chief Ziegler, as it is believed this was clearly demonstrated at a recent fire when four sections burst.

CONFERENCE STARTS TODAY

Presiding Elder Dickinson introduces Bishop James H. McCoy of Birmingham, to Dothan District Conference.

Bishop James H. McCoy, beloved throughout Southern Methodism, was one of the early arrivals at the Foster Street Methodist church today, and was introduced to the Dothan District Conference by Rev. W. P. Dickinson, presiding elder of this district, who was pastor to the bishop during his college days at Greensboro.

Promptly at 9 o'clock, the conference was called to order, and after several prayers and a hymn or two Dr. Dickinson made a brief talk, introducing Bishop McCoy. He also announced that throughout the conference, the devotional exercises will be under the direction of Rev. John H. Williams, pastor of the Methodist church at Newton.

Dr. Dickinson explained that he was pastor of a church at Greensboro, and while having this charge, was pastor to three boys, one of whom was Bishop McCoy, and all of whom he says have made their mark in the world. He told of having to "get after" the then college boy, but now Bishop.

The speaker explained that Bishop McCoy, of whom he spoke of in highest terms, had come to Dothan at a great sacrifice, as he had just finished a long, heated campaign in Texas.

Dothan Is Favored.

Bishop McCoy responded to the introduction in a few well chosen words, saying that his wife had asked him why he was going to a conference that was not even in his district. The bishop explained to her that one reason was because he and Dr. Dickinson had been old college pals at Greensboro. He said that out of a number of invitations he accepted the one to the Dothan conference.

Bishop McCoy did not deny the charge that Dr. Dickinson "got after him" once. He admitted that the presiding elder was after him four years. So much that he said: "I will never cease to thank God for a pastor with the tact and sympathy to guide me."

Had Uncanny Intuition.

"Dr. Dickinson had an uncanny intuition or knowledge about what was in a boy's head," said the bishop in referring to a scene when Dr. Dickinson told him he could tell what was on his mind. This was during the days, the speaker's remarks indicated, when he was sorely tempted.

About sixty-eight delegates and probably twenty ministers of the Dothan district are expected to attend the conference, which starts today and continues through Sunday. From time to time sermons will be preached by the visiting ministers, including Bishop McCoy.

The Agricultural Situation In South East Alabama

By Mr. L. E. Morgan, of Smith & Morgan

I believe in evolution of certain kinds. In certain spheres evolution is simply the working out of such laws as heredity, survival of the fittest, natural selection, etc. In the operation of such laws we recognize the beneficent plan of the Creator to guard against extinction of species, and to render environment as favorable as possible. Evolution exists to prevent devolution, it is the law of nature to protect itself, and it will assert this law sometimes arbitrarily, in order that it might ultimately benefit and protect its beneficiaries. The entire agricultural South is now in a state of evolutionary change. A new era was created by the Civil War. The cotton regime was established under free labor, and now at the close of a half century what is the result? Nearly 75 per cent of the farms in the South are under mortgage. Something wrong, somewhere, and we do not have to search far for the explanation. For fifty years we have had a one crop system, raising cotton as the money crop, and buying each year hundreds of millions of dollars worth of western meat, hay and corn.

This was an outrage, a monstrosity, a plain violation of the laws of nature,—hundreds of millions of dollars of cotton money going out of the South each year to buy those things which were the natural crops of this section. Nature has rebelled at the outrage and asserted itself. The day the Mexican boll weevil crossed the Rio Grande river, this system of farming was doomed. We are going to be saved, not because of ourselves, but in spite of ourselves.

What has been, and what will be the result?

In Texas where they have had the weevil for ten years or more, most of the farmers are more prosperous than they have been in fifty years. They raise nearly as much cotton, but under altogether different conditions. They usually plant from 3 to 10 acres to the plow, plant early cotton, fertilize it highly, cultivate it more carefully, etc. The balance of the land is planted in other crops and many raise hogs and cows. The money that formerly went for western hay, corn and meat now stays at home.

Experience has absolutely demonstrated that the principal damage from the boll weevil, in the demoralization that results during the first three years in localities that are totally unprepared for him.

In Southeast Alabama and in

CRUCIAL POINT IS REACHED IN HOME RULE CONTROVERSY

London, July 23.—The crucial point is reached in the Buckingham Palace conference to settle the home rule controversy. No agreement has yet been reached. Premier Asquith is gloomy after the day's conference.

While the conference was in session a suffragette eluded the guards hurled stones through a window into the conference chamber and Premier Asquith narrowly escaped injury.

Houston county, especially, there is time to make this preparation by a beginning this fall and winter. The way out for the farmers in this section is plain. In Houston county the farmers have the greatest opportunity of their life time to become financially independent. A larger portion of the land must be planted in feed crops and converted into hogs and cows.

With a packing house agency here in Dothan and cash prices for all live stock every month in the year, the farmers can, in the next five years, absolutely pay themselves out of debt. If any one doubts this I will be glad to refer them to other sections where the plan has been adopted and tried out. Think a moment, Mr. Farmer. Next year there will be a packing house agency in Dothan with cash prices for all live stock, live weight. At present hogs bring \$8.50 per hundred pounds, live weight. On this basis an eight months old hog that has been properly raised, will bring around \$17.00. Now is there a farmer in Houston county who cannot raise and sell in Dothan next year 25 such hogs. It will mean a cash income of over \$400.00. Suppose each farmer raises 50 such hogs, it will mean an income of over \$800. No wonder in those sections where this plan has been adopted, the farmers are out of debt.

This is the plan for Houston county. Decrease the cotton acreage, cultivate it more intensively, and put more land in food and grain crops, and raise some stock. And start now. The time for fall planting of cover crops will soon be here. Communicate at once with the Dothan Chamber of Commerce for advice and suggestions. They will supervise the plan in this county.

Bear in mind, however, that hogs cannot be successfully raised on any such basis as we see in operation on many farms today. You cannot raise cows and ticks at the same time—one or the other must go. Land must be fenced in, and you must use a dipping vat for cows. You must get rid of the tick.

Then there is the spectre of hog raising—hog cholera. But there is no more reason for hogs dying to day with cholera, than there is for the ranks of an army corps being decimated by typhoid fever. The best cholera serum now used is an absolute preventive, if used in time. If Houston county takes up stock raising in this way, the entire system will of course have to be

EXPERIMENT FARM PROBABLE

Commissioner of Agriculture Kolb Will Co-operate With United States Department of Agriculture.

State Commissioner of Agriculture Hon. Reuben F. Kolb has announced that he will co-operate with the United States Department of Agriculture for a soil survey and the establishment of an experiment farm in Houston county.

This development has been brought about following the activities of the Chamber of Commerce, which has been working upon the project for several months. The soil survey and experiment farm would mean a great deal to the agricultural interests of Southeast Alabama.

The proposition also has the endorsement of Senator White, who has been in correspondence with Secretary N. T. Cobb of the Chamber of Commerce concerning the project. It is also understood that Congressman Mulkey of the Third District is favorably inclined.

The movement looking towards the soil survey and experiment farm for this county was originally taken up with Congressman Clayton, who is now judge of the United States Court for the Middle District of Alabama.

placed upon a hygienic basis. It is a big job, but a very simple one. Hogs must be fed constantly, and have good food. They must have fresh, clean drinking water. Sleeping quarters must be clean and sanitary. They must be closely watched, and at the first appearance of cholera, any where in the country—be inoculated immediately with cholera serum.

In some portions of Georgia this system is in full swing, and I have noticed that in almost every instance, the banks are in the lead, at the head of the movement.

A good start can be, and should be made in Houston county next year, but it will be difficult to do anything unless the banks of Dothan take the initiative. The plan will certainly be adopted ultimately, but why wait until it becomes necessary under the stress of circumstances? There is a great opportunity before us now, and the time is here to begin. If the farmers take hold, and with the active and unselfish co-operation of the business men of Dothan get this system of farming firmly established, five years from today Dothan and Houston county will know a prosperity no one would have dreamed could be possible.

PEACE IN MEXICO FAR FROM ASSURED

Washington, July 23.—With Constitutionalists refusing to grant amnesty and General Villa ready to go south to open negotiations on his own account with Carranza, peace in Mexico is far from assured, according to diplomats here.

Villa's intrigue is said to have for aim the appointment of General Angeles as Secretary of War and Villa as commander-in-chief of the army. This would enable him to dictate the government. These entanglements cause officers to believe the man who can pacify Mexico has not yet appeared.

International News despatches from Mexico say Carranza has abandoned the Tampico trip and is carrying negotiations on with Carranza over a special direct wire from Ciudad Victoria.

THE SECRET OF SUCCESS.

Genuine Merit Required to Win the People's Confidence.

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, so many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfils almost every wish in overtaxing kidney, liver and bladder disease, corrects urinary trouble and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Birmingham, N. Y., and enclosing ten cents, plus postage, The Dothan Eagle, Dothan, Ala.

MIL MORGAN ON THE CROP SITUATION.

We publish today a thoughtful article on the agricultural situation in Southeast Alabama, by Mr. L. E. Morgan, of Smith & Morgan.

This article seems to strike the key-note of the situation as it exists today, and we hope it will be widely read. We read much about diversified farming, but much of it is impracticable. Mr. Morgan discusses stock raising, and more especially hogs. It seems that with hogs selling at \$8.50 per hundred pounds, live weight, about 12 1/2c for green pork, and with a packing house agency here in Dothan paying cash prices every month in the year—the farmers of the county should get busy on this plan.

It will be necessary, however, as Mr. Morgan says, for the business men of Dothan to take the initiative.

MYSTRAIN.

Measurements of human eyes demonstrate that there is probably no such thing in the world as an absolutely perfect eye. That would be a miracle which Nature with all her infinite ingenuity has never performed. No human face among the world's sixteen hundred million may be held perfect, either artistically or physiologically. To the owner of the face, this is relatively an unimportant matter, but to the owner of the pair of eyes an error of one three-hundredth of an inch in the curvature or dimensions of the eyeballs make their all important functions abnormal, resulting in eye-strain with its attendant physical life. The eye responds to the slightest physical force in the world that is light waves which are hundreds of millions of times more infinitesimal than sound waves. The eyes are the hardest worked of all organs, and the safety and existence of human lives frequently depend directly on their accurate working. The harmful results of eye strain, never wholly absent throughout life, may begin very early in childhood, even in the second year. Many little children, for instance, are constantly tearing their clothes, hurting their feet and legs, stumbling and falling, because their eyes are so faulty that their estimates of the size, location and nature of objects are not correctly made. Adults who have been blind and are suddenly given good vision, require years to learn to see accurately or safely in action. Probably 6 per cent of children are left-handed, left eyedness causing left handedness. From 4 to 10 years of age many children show an incomprehensible "nervousness" twitching of the hands and face, fickle appetite and various disorders all usually due to eye-strain. Yet almost all of these cases of eye-strain can be relieved and should be relieved in early childhood. The importance of securing the condition early in the child's school years, and the

MULKEY A DEMOCRAT.

The Age-Herald says Mr. Mulkey is a Democrat, "because he says so," but that does not make him a Democrat at all. The acts, and not the professions, of a man make him a Democrat. It matters not whether or how he has voted heretofore, according to the rule laid down by the State and Congressional Committees in the last primary, fixing qualifications of voters, if he voted for the National and State Democratic ticket in the election of 1912, he is a Democrat, and no one has the right to question his party standing.

Mr. Mulkey said he voted the tickets as prescribed, taking that oath when he offered himself for the special term, and the House Democratic caucus admitted him without challenge, as we predicted that it would do. The party committees are the only constituted power to fix a man's party standing, and as the high court of the party stands for Mr. Mulkey's Democracy, it goes without further question.—Montgomery Times.

CLIPPED From The Exchanges

Plowed Up Cotton.

Mr. R. Q. Clements, of Cedarville, one of the best farmers in the county, was in Greensboro last Saturday. He says that this is the third year the boll weevil has been on his place on the river, and that it has played havoc with the cotton. He has plowed up forty acres and planted corn, and says he has forty acres more that is as pretty a stalk as one would wish to see, but that there is no fruit on the plant. The weevils have riddled it and it is his opinion that he will not make a bale on the forty acres. However, Mr. Clements is cheerful, and says he has plenty of meat and corn on hand, hundreds of hogs and goats in the pasture, as pretty a prospect for a big corn crop as could be desired, and peas and gougers in abundance.—Greensboro Watchman.

Mathematical Prodigy Killed.

The Selma Correspondent to the Montgomery Journal states that Octavia Flunkin, the mathematical prodigy, who was well known throughout central Alabama, was killed in Lowndes county last week when he was mistaken for a desperado. Octavia was almost an idiot, but few mathematical problems submitted to him were too difficult for him to work without use of pencil. He possessed absolutely no education, and was considered one of the greatest wonders of the age by psychologists, having been placed on exhibition at a number of expositions. He traveled throughout this section of the state and was known by every man, woman and child. He was harmless, and it is with much regret that it is learned that he was the victim of a mistake.—Montgomery Journal.

Echoes of Corrupt Elections.

Sometimes certain things are known by certain questions in a municipality concerning acts of which the average citizen is totally unaware and which if were known would fill the popular mind with indignation. The question is a vexed one.—Greenville Living Truth.

The candy fig orchard

The candy fig orchard, which is near Robinson's is reported to be in considerable full this

year though only set out two years ago last spring. The trees have made a fine and uniform growth

The fruit is now being canned in large quantities to be sent to the candy plant in Chicago where it will be repacked in glass and tin for fancy retail trade. If a small quantity of the orchard which the hap and hollow will be done a service of very great value will be rendered the people of this section. The admittedly do well all along the coast in door yards but there is very general opinion in this section that they cannot be successfully grown in this section on a large scale

THOUGHT FOR THE DAY.

And if we find but one to whom we can speak out our heart freely, with whom we can walk in love and simplicity without dissimulation, we have no ground of quarrel with the world or God.—Stevenson.

THURSDAY—

Mrs. George Malone entertained at a family luncheon in honor of Mrs. Ed Malone of Pensacola, and Mrs. Richard Arrington of Enterprise.

Mrs. Jeter entertained for Mrs. Ed Malone at tea this evening.

FRIDAY—

Mrs. Fritter will be hostess at a book party Friday afternoon, honoring Mrs. Ed Malone.

Mrs. John Jones will entertain at a course dinner Friday evening with Mrs. Ed Malone, as honoree.

DINNER PARTY—

Mr. Clarence Rose was the gracious host at a beautifully appointed dinner on yesterday evening when he entertained in honor of Miss Martha Moya and Miss Louise Taylor of Cuthbert.

The young guests assembled at the home of Mrs. R. H. Walker, where a few minutes were spent in dancing before they were invited into the dining room.

The table was beautifully arranged with covers laid for ten. Little pink "love birds" were perched in each glass, holding a card in their beaks, thereby marking the place of each guest.

A crystal bowl of pink roses formed the effective centerpiece. A delightful course dinner was served.

The guests were Misses Martha Moya, Louise Taylor, Grace Faircloth, and Mary Whatley; Messrs. John Jones, T. J. Whatley, J. C. Rose, and Mr. C. C. Rose.

D. B. V. S. CLUB—

The spacious veranda of Mrs. H. H. Walker's was effectively arranged yesterday afternoon when she entertained for her little niece, Miss Robbie Harrison, of Enterprise.

As the guests arrived they were served refreshing punch from a beautifully appointed table in the reception hall by Miss Nell Reid.

Several games of Rook were enjoyed before Mrs. Harrison and Mrs. Yarbrough served a delicious two-course luncheon consisting of a salad course and cantaloupe with sherbet.

Those present were Misses Lucile Sharp, Julia Tatum, Irene Libenby, Elizabeth Farmer, Margaret Farmer, Lida Malone, Hope Cobb, Susie Doll Morris, Ernestine Calloway, Patsie Rose Poyner, Nell Reid, Christine Reid, Mary Jeter, Lillie Mae Jones, Dewey Hornsby, Annie Ross.

MISS GRACE FAIRCLOTH HOSTESS—

Miss Grace Faircloth was the charming hostess on last evening when she entertained in honor of her attractive house guests, Misses Louise Taylor and Martha Moya of Cuthbert, Ga.

The guests were received by Miss Faircloth and presented to the honorees before they were invited to the lawn, which was prettily decorated with Japanese lanterns festooned and a profusion of pretty ferns and palms.

Mrs. Edward Cannady served delightful punch from a table banked in brown eyed Susans, placed in one corner of the lawn.

Engagement cards were distributed and each one filed out their program for the evening. A bell was rung at intervals of about ten minutes and partners were exchanged for the next "prom."

ed for the next "prom."

Late in the evening an ice course and cakes were served by Mrs. Edward Cannady and Mrs. John Bennett, to the following: Misses Mary Ma Flowers, Marguerite Ghent, Florence Emory, Ella Florence, Barton Harrison, Johnnie Ross, Eva Glenn, Thelma Parker, Gladys Whatley, Louise Taylor, Martha Moya; Messrs. Cowdry Farmer, Walldough Lee, Frank Newton, Horace Libenby, Tom Eddy, Davis Morpheus, House Smith, Pete Florence, Clarence Rose, T. J. Whatley, H. F. Green, John Banks Harris, Az Flowers, Dan Stewart of Abbeville, Earl Tatum of Elba, and Royce Crawford.

Mrs. James W. Grant and little son, James, Jr., left this morning for Indian Springs.

Mrs. R. C. Williams and daughter Lucy Katherine, and Mrs. F. B. Culver left this morning for White Springs, Fla.

MRS. ED MALONE

HONOREE—

Mrs. W. W. Barnett entertained at her first affair since moving to her beautiful new home yesterday, when Mrs. Ed Malone was the inspiration for a lovely five course luncheon.

The guests went out in cars, and were received by Mrs. Barnett. The living room was very attractive with its pretty ferns and palms.

The dining room was effectively arranged and covers were laid for eight. Those present were Mrs. Geo. Malone, Mrs. John Malone, Mrs. Richard Arrington of Enterprise, Mrs. Ed Malone, Mrs. Arthur Malone and Miss Florie Malone.

Mrs. Ed Malone of Pensacola is being cordially welcome back home on this her first visit since they left in April, as will be seen by the numerous affairs given in her honor.

Mrs. Barnett entertained at a luncheon yesterday, Mrs. John Flowers had her to tea last evening. Mrs. Geo. Malone will have her to luncheon today, Mrs. B. A. Jeter will be hostess at dinner this evening. Mrs. Fritter will give a large Rook party for her Friday afternoon, and Mrs. John Jones will entertain at an elaborate course dinner in her honor Friday evening.

Mrs. James M. Smith and little daughter, Carolyn Foy Smith, of Atlanta, are with Mrs. Smith's sister, Mrs. S. O. Williams.

Joe Crine and Marvin Brown are at White Springs, Fla., with the rest of the Dothan folks.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up In Despair. Husband
Came to Rescue.

Cañon, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.
